TO: School Board Members

FROM: Dr. Bobbi Johnson

DATE: February 19, 2015

SUBJECT: Follow up From Joint Meeting

At the joint meeting between the Culpeper County School Board and Culpeper County Board of Supervisors held on January 22, 2015, the division was asked to provide further information on several items. At the February 23, 2015 work session, we will review the options for rezoning and reconfiguration that were included in the Study Group report as a means to address pockets of overcrowding until a new facility can be built. In addition, we have considered each school site for possible additions and/or placement of modular units. Our assessment of the best locations for this temporary solution will also be presented. Finally, we will revisit the capacity range report that was included with the task force report. I will also provide current lunch schedules to inform the discussion of adding students to sites with only one serving line or small student spaces.
